

Color cards instruction:

Each player places the coloured blocks in front of them in the following order:

2 sounds  

3 sounds   

4 sounds    

5 sounds     

The caller reads out a nonsense word followed by a second nonsense word. The players push out the colour which corresponds to the changing sound.

Eg twip—twap

The players should push out the red card, as the 3rd sound has changed.

Each time a player picks the correct card, they receive a point.
